REASON FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: allowance of claims 1, 3-14, 16-18, and 21 is indicated because the prior art of record does not show or suggest a directional coupler configured to connect the propagation waveguide with the annular waveguide to thereby form the high-frequency traveling wave circulating in the annular waveguide in one direction as recited in claims 1, 3, 10-14, 16-18 and 21; and the traveling-wave generator has a multiphase high-frequency wave supplier for supplying several positions apart from each other in the circumferential direction of the annular waveguide with high-frequency waves whose phases are shifted from each other in the circumferential direction, whereby the supply of the high-frequency waves whose phases are shifted from each other in the circumferential direction of the annular waveguide allows the traveling wave to be generated in the annular waveguide as recited in claims 4-9.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
